

Executive Coaching Certification & Leadership Intensive

"Whether it's because [managers who coach] are competing for talent, operating in a highly turbulent market place, trying to retain their budding leaders, or aiming to grow their solid players, they believe that they simply have to take the time to coach."

- Harvard Business Review

Today's leaders require skills beyond the analytical and strategic, and must wear many hats: advisor, supporter, mentor – and coach. Our certification focuses on developing coaches who excel at the critical soft skills leaders require today - including empathy, professional intimacy, and leadership presence.

The Executive Coaching Certification offers an opportunity for both deep self reflection and the development of the skills required to be a trusted coach to business professionals. Our guiding belief: we wouldn't ask our clients to do anything we had not done ourselves.

Candidates of the program include accomplished business leaders who wish to incorporate executive coaching into their management practice within an organization, as well as individuals who wish to begin or further develop a career as an independent executive coach.
